7. On 6th of February the cleaners and G4S cleaned stones and rocks from Mike compound and made the compound clean of any stones and rocks, so everyone knows that who started throwing the stones!
8. During this time some transferees' property and belongings were lost.
9. The transferees also witnessed the theft of their property, some of the local G4S staff stole transferees belongings after interrogation by Australian G4S supervisor, local G4S staffs confessed that they stole belongings from transferees rooms during lunch time.

[REDACTED]

[REDACTED]

10. There was a meeting on 16th of February between Immigration and representatives of the transferees. During this meeting Immigration were supposed to give a definite response to the transferees questions.
11. The answers which Immigration gave were unclear and inaccurate, that triggered another protest.
12. On the same day the "16th of February" at 6:15pm some of the transferees escaped from Oscar compound and after 20 minutes got caught by a group of locals, they also got beaten like animals.
13. One of the transferees had his throat slit by a machete and another one had his nose broken and a number of the escaped transferees were beaten with sticks and bats.
14. The news of Oscar compound spread to all of the compounds and all transferees were scared, they did not expect locals to be as harsh and brutal as they were.
15. A few moments later about 100 locals with big sticks, swords and machetes stood in front of Mike and Foxtrot compounds, the Foxtrot transferees were trying to break the fences to enter Mike compound which is next to Foxtrot compound to increase their abilities to protect them selves against the possible invasion of locals.
16. The local G4S dressed in riot clothing came in front of the fences.
17. While G4S were breaking into the compound to suppress the protest, one of the Australian G4S, "AMY" had started throwing stones at the transferees, all asylum seekers were shouting because of her misbehavior, then more stones to transferees by local G4S.
18. Asylum seekers were scared and threw stones back, on the other hand approximately 40 locals G4S with 15 local people began to throw stones from the beach side of Mike compound and most of the asylum seekers were terrified.
19. When expatriate G4S were aware that locals were throwing rocks, they tried to stop them but they could not control the situation, consequentially local G4S began throwing stones at the expatriate G4S as well.

20. When the locals stopped throwing stones, expatriates came back into the compound but they did not let any local to enter any of the compounds, such as: Cleaners, Salvation Armies and G4S.
21. That night most of the transferees went to Australian G4S supervisor, they explained their concerns to him and requested for a safe place, he responded that one of the G4S guards will come around and write down the names of those who were scared, he also mentioned they will be move to safe place by the end of the day.
22. They did not provide dinner until 2am and most of the transferees were waiting to be moved until 5am but nothing had happened.
23. The next day on the 17th from the early morning until 12pm in front of each compound around 150 locals and polices were standing with machetes and long sticks, and they were threatening all the transferees, stating "WE WILL KILL YOU".
24. When the asylum seekers passed the messages to the Australian G4S members they said: "We are already aware and we have been advised to stick together and be ready for any attack from them", they also mentioned "Don't worry, we will protect you as much as we can".
25. Mike compound was calm until 9:30pm, suddenly and deliberately the power was cut off and the locals started throwing stones and rocks from road side and beach side of Mike compound, some asylum seekers tried to break the foxtrot fences again to help Mike transferees, some of the transferees tried to stop the locals attack by hosing water at them using water hoses, they even covered the main entrance door using trunks to prevent locals from invading, the conflict was continuing about two hours.
26. The sound of gun fire scared the transferees, "Police got involved", all of them went back to their rooms to be safe, while the locals and national G4S and Police had broken the fences and the main gate, they had invaded from both sides.
27. The locals, PNG Police, and Riot G4S were beating all the transferees and aiming just their heads, like they were aiming to kill.
28. The value of a transferees life had come down to only one pocket of cigarette [REDACTED]

29. The Police and the National G4S would asked for a pocket of cigarette and if you would not give one, they would beat you.
30. The worst and the most terrifying behavior of the PNG Police was that they were aiming and firing at the innocent transferees with their guns, even now the containers which were transferees Shelter and rooms are full of tracks of bullet holes.
31. Everywhere was covered by blood as it is obvious in photos (walls, rooms, lockers, beds) attached as Appendix A.
32. After beating a multitude of asylum seekers, they dragged all of them in the main yard and they were verbally cursing and abusing them, they also stated "YOU ALL MUST GO BACK TO YOUR COUNTRIES. WE DO NOT WANT YOU TO BE IN OUR LANDS".
33. [REDACTED] a local employee by the Salvation Army, who identified as an offender, amongst the local he was witnessed using a bat to repeatedly strike a client over the head.
34. Most of the windows and lights were broken and smashed by locals to create fear.
35. After the incident when the attack and shooting ceased, some of the asylum seekers were denied to go to medical for treating their wounds.
36. The reason was that few of transferees had beaten in the Ambulance by local G4S and local G4S in the Ambulance also tried to choke transferees on the way to medical.
37. The final result of that vicious attack is: 350 persons out of 400 people in Mike compound got beaten hard, 147 got serious injuries, one of the victims of that attack was found unconscious in his room after 24 hours. One person was killed, two person were blinded, one person was shot in the buttocks and there was a robbery by the locals.
38. There hadn't been any access to Internet and Phones since 17th of February until 3th of March, because they were scared to expose whole of story truth the Media and the world and now after 19 days after incident, when the vehicles take transferees to IHMS(medical) in the way to IHMS there's lots of locals who show them sign of cutting

throat, and threat them to death. they are hanging around of compound with machetes. every single moment there is a risk of local attacks, and still there's some missing asylum seekers that there is no trace of them and being missed after incident.

39. When you go to passages of the accommodations during the night time, you can hear that asylum seekers are groaning and moaning and jump off from their beds!

40. Trauma effect is still going on. all of them are shocked and scared, and they faced with serious mental issues.
